**CALTRANS TO HOST PUBLIC MEETING  
IN ANTICIPATION OF FUTURE SR-2 CONSTRUCTION**

**WRIGHTWOOD**– The California Department of Transportation (Caltrans) will host a public meeting at the Wrightwood Community Building Tuesday, April 20, 2004. The informational meeting is intended to advise the public of a planned highway construction project within a two-mile segment of State Route 2 through town.

The proposed construction project will improve safety and local access by constructing a continuous two-way left turn lane, and standard eight-foot paved shoulders through town from Rivera Drive to just east of Sheep Creek Drive. The project will not add more travel lanes nor increase highway capacity. Work will also widen the Swarthout Creek Bridge, improve drainage systems, construct sidewalks and curb ramps along selected portions of the route, and relocate some overhead utilities.

**Meeting Location:**  
**Wrightwood Community Building**  
**1275 State Route 2**  
**Wrightwood, CA**

**Date/Time:**  
**Tuesday, April 20, 2004**  
**5:30 p.m. to 8:30 p.m.**

Project development and environmental evaluation is at an early stage, so a detailed design is not yet available for review. Representatives from Caltrans project management, design, environmental, and operations will be on hand to provide current status information and solicit comments on the project. The \$3.4 million project is anticipated to begin in spring of 2009.
